

1. READING. Read the following text and answer the questions.

# Why do you need a job?

Scan the profiles. Who is in high school? Who is in college? Who is a new parent?

These people need jobs. Read about their schedules, experience, and why they need a job.

**Eddie Chen**

I'm 16 now, and my parents don't give me an allowance anymore. I want to earn some money because I like to go out with my friends on the weekend. I go to school at 8:00 and get home around 4:30. My parents own a restaurant, so I know a little about restaurant work.

**Julia Brown**

I study French and want to be a teacher someday. I have classes all day on Monday, Tuesday, and Thursday, and on Wednesday and Friday afternoons. I usually study on weekends. I need a job because college is really expensive! I don't have any experience, but I'm a fast learner.

**Denise Parker**

My husband is an accountant and makes good money, but we don't save very much. We live in a small apartment, and we have a new baby. We want to save money to buy a house. I take care of the baby, so I need a job I can do at home. I can type well, and I have a new computer.

	Julia	Denise	Eddie
To save money			
To pay for college			
To go out on the weekend			
To buy a house			

2. which is the best job for Julia, Denise, and Eddie?

3. READING N. 2. Please read and answer the questions.

San Francisco has banned facial recognition. The city uses cameras for car number plates and at airports. Officials say facial recognition will increase security. Police can quickly and cheaply find criminals and missing people. An expert said: "A ban on facial recognition will make [San Francisco] frozen in time with [old] technology."

An official said facial recognition was like "Big Brother" from the book "1984". Big Brother is when governments try to control and spy on everyone. The official said: "We can have security without being a security state [and] good policing without being a police state." He said community information was best to build trust.
